

# PRODUCT DETAILS LIST

Item	Model	Oil treated	Function	Flow/Capacity	Applied Industry	Popular market
1	Highly vacuum purifier	Insulation oil, cable oil, transformer oil, mutual inductor oil, circuit breaker oil etc.	1/. Dehydration,degasing, remove out particles, residuals and other impurities in oil; 2/. Improve insulator oil's dielectrical strength; (more than 65KV) 3/. Can also serve as transformer oil filler and dryer for transformer.	10,20,30,50,100,150 , 200,300 L/min.	Power plant, Electric station, etc.	Singapore,Malaysia, Turkey, Thailand, Indonesia Kenya, etc.
2	Two-stage vacuum purifier	Insulation oil, HV Transformer oil, mutual inductor oil, circuit breaker oil, etc.	1/. Dehydration,degasing, remove out particles, residuals and other impurities in oil; 2/. Improve insulator oil's dielectrical strength; (more than 75KV) 3/. Can also serve as transformer oil filler and dryer for transformer.	30,50,100,150, 200,300 L/min.	Power plant, Electric station, etc.	USA, Chile, Colombia, Romania, Paksitan, South Korea, etc.
3	Used Insulation oil/transformer oil recycling plant	waste/used transformer oil, insulation oil, mutual inductor oil, circuit breaker oil, etc.	1/. Dehydration, degassing, remove out particles, residuals and other impurities in oil; 2/. Improve oil's PH Valuve, acid value, free carbon, etc. 3/. Upgrade waste oil color to be fresh; 4/. Can also serve as transformer oil filler and dryer for transformer; 5/. Improve oil's dielectrical strength (more than 65KV)	20,30,50,100,150, 200,300 L/min.	Power plant, Electric station,manufacture companies,etc.	Philiness, Malaysia, etc.

4	Transformer oil Recycling Device	Deteriorated Transformer oil, insulation oil, Breaker oil, etc.	1/. Remove acid content, suspended matter and precipitated residues in oil; 2/. Can allow transformer to stay running in normal manner without switch off of power and change of oil when purifying; 3/. Upgrade old oil color to new oil color while keeping elements & function of oil; 4/. Improve oil's dielectrical strength (more than 45KV)	50, 100, 150L/min.	Power plant, Electric station, etc.	Malaysia, Sri Lanka, Thailand, Canada, etc.
5	On-load tap-changing switch oil cleaning plant	On-load tap-changing switch oil	1/. Filtrate carbon and metal particle in the transformer switch on line; 2/. Reduce water content to ensure BDV; 3/. Advanced microcomputer control.	10L/min.	Power plant, Electric station, etc.	Colombia, South Korea, Chile, etc.
6	Fully Automatic Insulation Oil Tester	Insulator Oil; transformer oil	1/. Be used for testing insulator withstand voltage; 2/. Test dielectric strength of transformer oil; 3/. Computer control and fully automatic, with digital programming which can test times of tests and times of stirring standstill ; 4/. Printing out of test result is available.	TEST RANGE: <80KV or 100KV.	Mid-small sized Power plant, Electric station, etc.	Korea, Malaysia, Thailand, Kenya, etc.
7	Turbine oil Treatment purifier	low viscosity-Turbine oil, Lubricant oil, coolant oil	1/. Demulsifying, Dewatering, Degassing; 2/. Remove Impurities; 3/. Recovery the clarity and clean of oil.	10, 20, 30,40,50,100, 150, 200, 300 L/min.	Related turbine oil industry	Singapore, Malaysia, Thailand, etc.

8	TYA Containmated Lubricant oil Treatment Regeneration Plant	Solely for lubricant oil & hydraulic oil & Gear oil, etc.	1/. Strong demulsifying and dehydration capacity, which easily remove large quantity of water as well as minimal amount of water in oil; 2/. Elimination of impurities and gas; 3/. After treatment, cleanlinesss will be better than NAS6; 4/. Upgrade emulsifying cloud color to be clean and transparent.	TYA-10, 20, 30,40,50,100, 150, 200, 300 L/min.	Related lubricant oil industry, hydraulic oil, gear oil, etc.	India,Singapore, Malaysia, Turkey, Thailand,etc.
9	Fuel oil and light oil Treatment Purifier	Fuel oil and light oil, bunker oil,containing large quantity of water	1/. With special oil & water separator, no heating but 20times dewatering efficiency over other types of purifiers; 2/. Water can be discharged online automaticlly without presence of operators; 3/. Strong ability of demulsifying.	10, 20, 30,40,50,100,150, 200L/min.	Related light oil & fule oil & steam turbine oil industry.	Malaysia, Thailand, Austrila,Pakistand, etc.
10	Waste/Used Black Engine Oil Recycling Plant	Used engine oil series and related lubr oil series, including inter-combusion oil, diesel engine oil, gasoline oil, ship oil, etc.	1/. Dehydration,degas, remove out particles, residuals, acid, bitumen, other impurities in oil; 2/.Upgrade waste & used oil color to new oil color while keeping property & functions of oil; 3/. Apply to waste oils, including, engine oil,motor oil,ship oil, etc. 4/.Has been exported to Dubai/Jordan/Malaysia/Singapore, etc.	from 2T/day to 20T/day	Motor field, transport industry, Ship field, waste oil-collecting industry, etc.	Mid-east such as Saudi Arabia, Jordan; Sinapore, Malaysia, Thailand, Korea, etc.
11	Portable Oil Purifier and Oil Filler	All kinds of oil with impurties	1/. With 3-stage filtration to remove impurities; 2/. No need oil filter paper, no contamination to the ground; 3/. Easy to operate.	30, 40, 50, 80, 100, 150, 200, 300L/min.	For filtration of harmful mechanical impurities in oil; as well as long distance and high lift oil filling and pumping.	India, Singapore, Malaysia, Thailand, Kenya, etc.

12	Phosphate Ester Fire-resistant oil treatment purifier	Fire-resistant oil series, HFC oil, ester oil, etc.	1/. Remove free water and dissolved water and gas; 2/. Remove out particles, eliminate acid content in oil, as well as inhibiting the production of new acid in system.	10, 20, 30, 50, 100, 150, 200, 300L/min.	Phosphate ester oil system and mechanical equipment	Iran, Singapore, etc.
